Summary

I am a frontend developer with 2 years of experience, specializing in building clean, responsive, and intuitive user interfaces using HTML, CSS, TypeScript, React.js, and Next.js. I also have some experience with React Native, which I have gained from developing small personal projects. Since October 2023, I have been working in the iGaming industry, focusing on performance optimization and enhancing user experience.

1. Professional Experience

Crunchequation | Porto, Portugal *Front End Developer (Contract)* | 10/2023 – Present

- Develop landing pages, corporate websites, and blog templates for clients in the iGaming industry.
- Ensure responsive layouts and visual consistency across devices using React, Next.js, Tailwind CSS, and Figma.
- Focus on performance optimization and smooth UX.

Projects:

- **Blog - Portal Camisa12**
 - **Stack:** Next.js, Tailwind CSS, WordPress (Headless CMS via REST API), Vercel.
 - **Highlights:** Developed a fully responsive and scalable website; integrated WordPress as a headless CMS; collaboration with 8 writers.
 - **Link:** <https://www.portalcamisa12.com>
 - **Corporate Website - Innovaplay**
 - **Stack:** Next.js, Tailwind CSS, WordPress (Headless CMS via REST API), Vercel.
 - **Highlights:** Developed a fully responsive and scalable website; integrated WordPress as a headless CMS; deployed the application to Vercel for seamless CI/CD.
 - **Link:** <https://www.innovaplay.io>
 - **Corporate Website - Crunchequation**
 - **Stack:** React.js, Tailwind CSS, WordPress (Headless CMS via REST API), Cloudinary, i18n.
 - **Highlights:** Integrated WordPress as a headless CMS via REST API; implemented multilingual support (i18n); used Cloudinary for optimized video and performance.
